United States Department of Agriculture SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

DECEMBER, 1928

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for references. A file should be kept at each station for references.]

CHANGES IN DIRECTORY

Meat Inspection Granted

- 173-A. Hammond Standish & Co., M. C. R. R. and LaGrange Street, Toledo,
- *E-91. Holland-American Packing Co., Box 552, Great Falls, Mont.

Meat Inspection Withdrawn

906. Millers (Inc.), Trenton, N. J.

Meat Inspection Extended

- *3. Swift & Co., Union Stock Yards, Chicago, Ill., to include the Newton Packing Co. and the Underwood Packing Co.
 4. United Sausage Co., Boston, Mass., to include B. Meier & Son, Keane-Loffler Co., Adolf Gobel (Inc.), George Kern (Inc.), and Merkel (Inc.).

Change in Name of Official Establishment

247. Greenwald (Inc.), Union Stock Yards, Baltimore, Md., instead of The Greenwald Packing Corp.

^{*} Conducts slaughtering.

Change in Name of Subsidiary

420. Hygrade Food Products Corp., Brooklyn, N. Y.: The name Chris. Grozinger Co. (Inc.), is changed to Chris. Grozinger Corp. of New

973. Hygrade Food Products Corp., Brooklyn, N. Y.: The name Chris. Grozinger Co. (Inc.), is changed to Chris. Grozinger Corp. of New York.

973-B. Hygrade Food Products Corp., New York, N. Y.: The name Chris. Grozinger Co. (Inc.), is changed to Chris. Grozinger Corp. of New

Change of Official in Charge

Dr. Jens Madsen succeeds Dr. J. E. Cloud (retired) as inspector in charge at San Diego, Calif.

Dr. E. F. Cary succeeds Dr. Jens Madsen as inspector in charge at Oklahoma

City, Okla. Dr. C. P. Hart succeeds Dr. E. F. Cary as inspector in charge at Nashville, Tenn. Dr. John L. Burgett succeeds Dr. C. P. Hart as inspector in charge at Morristown, Tenn.

Dr. C. O. Benson, Ogdensburg, N. Y., will temporarily cover the work at Watertown, N. Y., formerly under the charge of Dr. A. L. Danforth (resigned).

New Stations

Toledo, Ohio, meat inspection, Edward Smith, in charge, care Hammond Standish & Co., M. C. R. and LaGrange Street.

Great Falls, Mont., meat inspection, Dr. P. A. Franzmann, in charge, care Holland-American Packing Co., Box 552.

NOTICES REGARDING MEAT INSPECTION

ANIMAL CASINGS FOR CANADA

Referring to Service and Regulatory Announcements of August, 1928, entitled "Finished Animal Casings for Canada," the bureau is in receipt of official advice to the effect that the Canadian authorities are experiencing difficulty in identifying animal casings from the United States with the certificate on account of the absence of marks on the containers. Accordingly, exporters are requested to mark the containers of each consignment of animal casings for Canada with the name of the product such as "Green hog casings," "Finished beef bungs," etc., and a shipping mark in diamond form inclosing the initial or initials of the exporter.

Inspectors are directed to see that the containers of animal casings for Canada are marked as indicated above, and that the shipping mark and the name of the product are shown on the corresponding official certificate.

CERTIFICATE FOR ANIMAL CASINGS DESTINED TO AUSTRALIA

The Government of Australia requires that animal casings imported into that country shall be accompanied by an official certificate similar to the revised certificate for animal casings for Austria. Therefore casings intended for export to Australia should be handled and certified as indicated in Service and Regulatory Announcements of November, 1926.

MINERAL OIL USED AS A DENATURANT

Hereafter, mineral oil used as a denaturant must have a specific gravity not lower than 0.835 at 60° F. (15.5° C.), a flash point (open cup) not lower than 250° (121° C.), and a boiling point not lower than 465° (241° C.); it must be easily recognizable by taste when present in fat in the proportion of 1 part of oil to 1,000 parts of fat, and must be used in the proportion of not less than 1 part to each 100 parts of grease.

When condemned or inedible product is rendered in a steam tank or in dryrendering apparatus which is operated under pressure of steam generated from the moisture in the charge, there shall be added to the contents of the tank or dry rendered before closing and sealing a quantity of approved mineral oil sufficient

to make not less than 1 part in each 100 parts of the yield of grease.

When condemned or inedible product is rendered in dry-rendering apparatus operated at atmospheric pressure or under vacuum a quantity of approved mineral oil sufficient to make not less than 1 part in each 100 parts of grease shall be added to and thoroughly mixed with the rendered grease while melted. shall be held under supervision until denaturing has been completed.

Rendered fat condemned on reinspection may be denatured by melting and mixing with a quantity of approved mineral oil sufficient to make not less than 1

part in each 100 parts of the condemned fat.

A 4-ounce sample shall be collected from each delivery of mineral denaturing oil to official establishments and submitted to the district meat-inspection laboratory to determine conformity with the requirements. Inspectors will not permit the use of any denaturing oil until approved by the laboratory.

Mineral oil, now on hand at official establishments, which already has been approved under the former requirements, may be utilized as a denaturant but must be used in the proportion of not less than 1 part to each 100 parts of grease.

This notice supersedes previous instructions in Service and Regulatory
Announcements, January, 1915, page 2, Mineral Oil for Denaturing.

ANIMALS SLAUGHTERED IN NOVEMBER, 1928, UNDER FEDERAL INSPECTION IN DISTRICTS REPRESENTED BY THE CITIES IN THE FOLLOWING TABLE

PERMITTED DISINFECTANTS

In accordance with the provisions of B. A. I. Order 309, governing the interstate movement of livestock, the bureau has granted permission for the use of the following saponified cresol solutions, in the general disinfection of cars,

yards, and other premises:

To the Dixie Chemical Co. (Inc.), 623 Commerce Street, New Orleans, La., for the use of "Dixsol."

To The Heinrich Chemical Co., Minneapolis, Minn., for the distribution use of "Crestall Dip," under the name of "Heinrich's Crestall Solution." "Heinrich's Crestall Solution" is identical with "Crestall Dip" manufactured by Baird & McGuire (Inc.), Holbrook, Mass.

¹ Inactive November 1, 1922, to November 1, 1924.

Areas released from Federal quarantine Dec. 1, 1928: Alabama, 3 counties; Arkansas, 1 county and the remainder of 1 county; Florida, 8 counties; Louisiana, 2 parishes and part of 1 parish; Oklahoma, 1 county and the remainders of 3 counties; Texas, 8 counties. No areas requarantined Dec. 1, 1928. Twenty-four additional released counties tick free on Nov. 1, 1928.

INSTRUCTIONS CONCERNING APPROPRIATIONS AND PROJECTS

The attention of inspectors in charge and employees charged with the duty of preparing pay rolls and other vouchers is invited to the fact that frequently claims are transmitted to the bureau for payment, quoting a particular appropriation and an entirely different project symbol. This is not only confusing but very often causes an item of expense to be charged to the wrong appropriation. These errors occur on all classes of vouchers but more often in connection with pay rolls. In preparing the form, T-52, to accompany a pay roll, care should be taken to see that the entry in the "Project" column agrees with the entry in the "Appropriation" column. Several cases have occurred recently in connection with stockyards work in which a tuberculosis project symbol was quoted but it was indicated that the item should be paid from the inspection and quarantine appropriation; also, an inspection and quarantine project symbol was quoted but it was indicated in the appropriation column that payment should be made from the packers and stockyards appropriation.

RESULTS OF PROSECUTIONS FOR VIOLATIONS OF LAWS

Fines and penalties have been imposed in prosecutions for violations of regulatory laws, as reported to the bureau, as follows:

Livestock-Quarantine Law

Louisville & Nashville Railroad Co., interstate transportation of cattle without tuberculin test, \$100 fine.

San Antonio, Uvalde & Gulf Railroad (2 cases), failure to mark waybills "Southern cattle," \$200 fines.

Twenty-Eight-Hour Law

Baltimore & Ohio Railroad, \$100 penalty. Chicago, Rock Island & Pacific Railroad Co., \$100 penalty. Long Island Railroad Co., \$100 penalty. New York Central Railroad Co., \$100 penalty. Pennsylvania Railroad Co., \$100 penalty. Texas & New Orleans Railroad Co., \$100 penalty.

NEW PUBLICATIONS OF THE BUREAU

[The bureau keeps no mailing list for sending publications to individual employees, but sends copies to officers in charge of stations and offices. These publications should be regarded as notification copies. So far as possible additional copies will be furnished on request.]

Technical Bulletin No. 93. Four Species of Range Plants not Poisonous to Livestock. By C. Dwight Marsh, A. B. Clawson, and G. C. Roe, Pathological Division. Pp. 10.

Farmers' Bulletin No. 578. The Making and Feeding of Silage (revised). By two employees of the Bureau of Dairying and E. W. Sheets, Animal Husbandry Division. Pp. 26, figs. 11.

Farmers' Bulletin No. 1330 (slightly revised). Parasites and Parasitic Diseases

of Sheep. By Maurice C. Hall, Zoological Division. Pp. 36, figs. 34.
Farmers' Bulletin No. 1391 (revised). The Guinea Fowl. By Alfred R. Lee,
Animal Husbandry Division. Pp. 13, figs. 6.

Farmers' Bulletin No. 1524 (slightly revised).

Farm Poultry Raising. By

M. A. Jull, Animal Husbandry Division. Pp. 28, figs. 21.
Farmers' Bulletin No. 1554 (slightly revised). Poultry Houses and Fixtures.
By M. A. Jull and A. R. Lee, Animal Husbandry Division. Pp. 30, figs. 29.
